World class health care anytime, anywhere

This is not a deposit product. As your money will be invested in equities and/or fixed income assets, your earnings are not assured and will depend on market performance. This exposes the principal amount invested to risk of loss if withdrawn during unfavorable market conditions. If you do not fully understand this product, seek further financial advice before purchasing or investing in it.

You've already secured your wealth, now it's time to focus on your health.

Designed just for you

Global Health Access is designed for successful individuals like you! What's more, your family can also enjoy the benefits of Global Health Access!

Individuals primarily residing in the Philippines, and who are between 15 days old to 70 years old can enjoy the executive healthcare benefits of Global Health Access.

Family Package

If you wish to cover your spouse and children with the same plan, you will automatically enjoy a 15% reduction on your total premiums, provided a minimum of four eligible members are enrolled.

Additional Savings

Get additional savings on your premium by choosing to pay for the first P100,000* of your in-patient medical bill ("annual deductible"). Note that you will continue to enjoy your full coverage amount after paying your "deductible".

Option to Choose Your Own Doctor

Global Health Access places AXA's worldwide network of top-rated hospitals, medical practitioners, and emergency responders at your service. But you don't have to be limited to AXA's network of doctors! Should you feel more comfortable seeing your own specialist, you have the option to consult with them even if they're outside our network. Nothing's more important to us than giving you peace of mind.

24/7 Health Support

You don't want to be kept waiting and you certainly don't like to keep your health concerns on hold. Global Health Access provides you with round-the-clock support from anywhere in the world through AXA's own team of nurses, pharmacists, counselors, and midwives. Our professional healthcare practitioners are ready to share expert advice and reliable information on illnesses and conditions, from signs and symptoms, to medications 24 hours a day, 7 days a week.

Cashless Transactions

Undergoing treatment for an illness requires your full focus. While you concentrate on getting better and improving your overall health, we'll take care of your eligible medical expenses by paying your medical provider directly.

Global Concierge

As a high-value client, you deserve to enjoy the full benefits of our personalized service. We have a concierge on standby across major cities around the world to provide you with your preferred level of assistance on services such as flight and travel arrangements for your scheduled treatments, transfers to and from the hospital, or even dining reservations.
