### Installment Loan Availment

The computation of the Monthly Installment Amortization shall be on a diminishing balance method. It means that interest per installment period shall be calculated based on the remaining principal balance of the loan at the beginning of each installment period. The principal and interest portion of the computed monthly installment amortization for the duration of the term will not be equal from month to month, but the sum of principal and interest will be the same. The first billing of the monthly amortization shall be on the day the installment transaction was posted to the account and the succeeding monthly installments shall be billed on the same date of every month. The last billing of the amortization amount may have a slight difference which could be higher or lower due to rounding-off differences.
